General Comment

Option Trading in my IRA account has allowed me to increase its value . Covered calls present yield and return for several of my IRA investments. I have taken the time to learn and get acclimated to options trading. The real issue is why the government is not pushing this harder for many americans who are not aware of this additional source of income for retirement.

Do not issue rules and or regulations that will limit or preclude someone from building their retirement account.

I so look at social security or the the government for my retirement.
